Error 404

This page is an error page designed and added to this theme

Source and Credits

Included Libraries

JQuery (jquery.com) → jQuery is a fast, small, and feature-rich JavaScript library. It makes things like HTML document traversal and manipulation, event handling, animation.

Bootstrap (getbootstrap.com) → This framework adapt the theme to all device

Jquery.easing ([Framework access](#)) → Use for page scrolling

Magnific Popup ([Framework access](#)) → displaying the images

Waypoints ([imakewebthings.com/waypoints/](#)) → trigger a function when you scroll to an element

Progressbar ([kimmobrunfeldt.github.io/progressbar.js/](#)) → progress bar plugin

Used Font
Font Awesome ([fontawesome.io](#)) → Font Awesome gives you scalable vector icons that can instantly be customized — size, color, drop shadow, and anything that can be done with the power of CSS.

Once again, thank you so much for purchasing this theme. As I said at the beginning, I'd be glad to help you if you have any questions relating to this theme. I'll do my best to assist.
